The Stones Cry Out

Director Yasmine Perni will be present for discussion.

Documentary Film, 55 minutes, shows the effects of the Israeli occupation on the indigenous Christian Palestinian population.

The oppressive practices of the Israeli government, the illegal settlements, the apartheid wall, the devouring of water and land, and the Jews-only roads lead to the suffocation of Christian towns and villages.

Bethlehem, the birthplace of Christ is now hemmed in the wall, cut off from Jerusalem and robbed of much of its agricultural land.
